

When It's My Time

Brent Cobb

When it's my time
I'm gonna go
There is no reason
For me to stay
I did all the dancing
That could have been done
I would have been gone anyway

I lived my life
The way that I wanted
Some folks agree
Other folks don't
I believe in heaven
I believe in love
I believe it can't change
The plan made above

So when it's my time
I'm gonna go
There is no reason
For me to stay
I did all the dancing
That could have been done
I would have been gone anyway

It ain't been easy
Going this long
Riding the fine line
Between right and wrong
But I been living
I fought tooth and nail
I walked the high road
And given it hell

When it's my time
I'm gonna go
There is no reason
For me to stay
I did all the damage
That could have been done
I would have been gone anyway

There ain't no place
I'd rather be
Than right where I stand
Between you and me
I can weather the storm
I don't mind the rain
The day that I'm gone
I'll be feeling no pain

When it's my time
I'm gonna go
There is no reason
For me to stay
I did all the dancing
That could have been done

I would have been gone anyway

When it's my time

I'm gonna go

There is no reason

For me to stay

And I did all the dancing

That could have been done

I would have been gone anyway
