

Heavenly Father, do You know who I am?
Silver star of Bethlehem
Bless, oh, Garden of Eden, arrested for treason
Only You Himself could help me now, held me down
You can't change that now, police, ain't no policing
To my needment, no
Clear the sound of faith

I got on my knees and pray
Ain't no problems go away
Here in Eden, leaving
And I get no sleep last night
No, I tried and tried and tried
Here in Eden, leaving

Heavenly Father, I know I'm stuck in my ways
Searching for a brighter day
My, You can make it better, why won't You?
Why don't You? How do You do with love? What's the reason?

I got on my knees and pray
Ain't no problems go away
Here in Eden, leaving
And I get no sleep last night
No, I tried and tried and tried
Here in Eden, leaving
