

Get Undone

Bret Michaels

She loves the kids
She hates her job
She comes home and keeps the house from a falling apart
So tonight I got a sitter
She going to show me them daisy dukes still fit her
Wants a good time
She wants to rock ya
So I'll grab the jack and you grab the vodka
Tore up from the floor up
So pull down the shades and let's lock the doors up

Sometimes she needs to get undone
Sometimes she needs to know that she is still the one that lights me
up
Turns me on
Rocks my world all night long
Yeah you're the one so baby let's get undone

She likes to kick back just
Kind of lose track
Forget them dirty clothes A hanging on the towel rack
Dance
She loves to sing
She still so sexy when she shake that thang
I rev my bike up
And take a ride
She really really loves my bad boy side
She wants a night
She can't remember
I'll bring tequila you get the blender

Sometimes he needs to get undone
Sometimes she needs to know that she is still the one
That lights me up turns me on rocks my world all night long yeah you'
re the one
So baby let's get undone

Well the better
That I treat her
Makes the lovin get hotter and the honey taste sweeter
Wants some us time
And that's just fine
Cause loving you's the only thing that's been on my mind

Sometimes she needs to get undone
Sometimes she needs to know that she is still the one who lights me u
p turns me on rocks my world all night long yeah you're the one so ba
by let's get undone
Yeah let's get undone
