

Human Zoo

Bret Michaels

Well you just step right up, you sexy thing
Tell me what's been goin' on in that funky little brain
Come dance with the devil
You want it when it's gonna cost you
'cause nothing comes for free
When you're living in a human zoo

chorus

Dance sister dance through the human zoo
You're such a mess now, girl
Look what they've done to you...
In the human zoo
Look what they've done to you

All love lost, in a fit of rage
Sell your soul for revenge and seal your fate
Welcome to the nightmare
I've been expecting you
Say anything you like, baby
Just don't let me hear your point of view

chorus

Dance sister dance through the human zoo
Dance sister dance through the human zoo
You're such a mess now, girl
Look what they done to you...
In the human zoo
Look what they done to you
Look what, look what they done, baby
They made a mess of you

harmonica solo

bridge

Hanoi rocks and Saigon rolls
Just drop the bomb then watch it explode
Sign of the times read "too young to vote"
But old enough to die for you
We got the medication you need
Just don't let us hear your point of view

chorus

Dance sister dance through the human zoo
Dance sister dance through the human zoo
