

The Other Side Of Me

Bret Michaels

A little rough around the edges
Too proud to say I was wrong
Used to stay up with the Devil
In the bottle all night long

Got a bad reputation
Living on the wilder side
But you saw something different
When you looked in my eyes

chorus

You saw the other side of me
A story yet untold
You found the love in my heart
And breathed new life in my soul
And you just kept holding on
When you could have let go
I thank God you stayed long enough to see
The other side of me

You looked a little deeper
Saw the boy inside this man
When I thought I'd never love again
You showed me I can

You pulled me from the fire
And I can't repay the cost
You found the other person
I thought that I had lost

chorus

solo

And you just kept holding on
When you could have let go
I thank God you stayed long enough to see
Girl I'm glad you found the other side of me
