

This Is Going To Be The Year

Brett Dennen

This is gonna be the year
Something good is happening here
I'm gonna make it true
Lord knows I'm overdue

This is gonna be the year
Heaven above as my witness, can I get a witness?
This is gonna be the year
Whisper "it's all right" in my ear

So dance me to the end of the night
Til a new year will shine
A new year will shine
On you tomorrow
When you open your eyes
A new year will shine
A new year will shine

And you'll throw your arms around me
And you'll kiss me like you never
Kissed me before
My dear
This is gonna be the year

The time that you spend in love
Is never really long enough
Pick you up and spin you round
We'll put the hard times behind us now

This is gonna be the year
It's been a long time a coming, long time a coming
Rage against the weary eyes
A little bit bolder and a little more wise

So dance me to the end of the night
Til a new year will shine
A new year will shine
On you tomorrow
When you open your eyes
A new year will shine
A new year will shine

And you'll throw your arms around me
And you'll kiss me like you never
Kissed me before
My dear
It's gonna be the year

All that you wanted is coming this year
No need to hurry
Nothing to fear

All that you wanted is coming this year
No need to hurry
Nothing to fear

All that you wanted is coming this year

No need to hurry
Nothing to fear

All that you wanted is coming this year
No need to hurry
Nothing to fear

All that you wanted is coming this year
No need to hurry
Nothing to fear

All that you wanted is coming this year
