

Fell Like Rain

Brett Eldredge

Starlight
Surrounded by an ocean, your eyes
Your memory is stained like the red wine
After all this time

Tell me you remember
As the streetlights changed
Kissed you and we fell like rain
Fell like rain

Waves crash
Fighting through the dark to get you back
Still feel my broken heart beating so fast
After all that we had

'Cause we were holding on to something
Don't tell me it was nothing
When we were both falling like rain
Falling like rain

Oh, oh

Hold me
Touch me
Tell me you still love me

'Cause I'm still falling like rain
I'm falling like rain

Oh, and even if you have to walk away
Tell me you remember
As the streetlights changed
Kissed you and we fell like rain
