

# Gabrielle

Brett Eldredge

I was caught up in your brown eyes  
Lookin' up at the blue skies  
Really made me realize  
They don't make 'em quite like you  
Cinnamon skin in the sunshine  
Stopped time in the moonlight  
Really made me feel like  
Like I could fall for you

Then one day you were just gone  
And I've been wonderin' for so long

Oh, was it your heart or mine?  
Was it just the wrong time, Gabrielle?  
We never got very far  
But, girl, wherever you are  
I wish you well  
Gabrielle

You were pickin' flowers on a side road  
Leanin' back on a fence post  
Couldn't help but notice  
You were wantin' somethin' more  
I was starin' off in the distance  
Blinked twice and I missed it  
Can we just rewind it  
Like it was before?

And I woke up and you were gone  
And I've been wonderin' for so long

Oh, was it your heart or mine?  
Was it just the wrong time, Gabrielle?  
We never got very far  
But, girl, wherever you are  
I wish you well  
Oh, Gabrielle  
Oh

And the miles, they fly by  
Until you land back home again  
And do you ever wonder  
What we might have been?

I can still see ya standin' there  
Sun shinin' behind your dress  
Your silhouette  
Mmh, so perfect  
Take me back there  
Take me back there

Oh, was it your heart or mine?  
Was it just the wrong time, Gabrielle?  
We never got very far  
But, girl, wherever you are  
I wish you well  
Oh, Gabrielle

Oh, Gabrielle  
Oh, was it just the wrong time?  
Oh, Gabrielle
