

# Gotta Get There

Brett Eldredge

Put me on a train  
Put me on a runway one-way sky-high aeroplane  
Girl, I really need a change, get away, see the smile on your face  
Find me a row boat, let it flow, on a river pointed your way,

I'm thinking let's be spontaneous  
All I'm saying is...

It's a long way from here to California and I  
Must say I need you around and I'm  
Not afraid to meet you in the middle of a  
Nowhere anybody's heard of town in a  
Little cabin up in the mountains or a  
Cabana on a beach somewhere  
All I know is you're not here  
And all that means is I gotta get there

Yeah, I gotta-gotta get there, I gotta get there, yeah

Well, put me in your arms  
Cause for a long while these miles been keeping me from where you are  
I need a little sweet talk, long walk, strolling down the boulevard (take a walk)  
Well, can't you hear the "miss you" in my voice?

Oh, no more waitin', let's be spontaneous  
All I'm saying is...

It's a long way from here to California and I  
Must say I need you around and I'm  
Not afraid to meet you in the middle of a
