

## Holy Water

Brett Eldredge

I've been on the verge of breaking  
Couldn't find my way outta here  
I saw you standing there waving  
Making all this hell disappear

You are my holy water  
You are my river deep  
Wash me away and take me higher  
'Cause something 'bout your love just sets me free  
Something 'bout your love just sets me free

I had my time being reckless  
Holding back my heart for too long  
All those empty nights made me helpless  
And I was fading like the end of a song

You are my holy water  
You are my river deep  
Wash me away and take me higher  
'Cause something 'bout your love just sets me free  
Something 'bout your love just sets me free, oh

I got used to broken hearts  
Watching my world fall apart  
Didn't know I needed you  
But now I do, now I do, oh

You are my holy water  
You are my river deep  
Wash me away and take me higher  
'Cause something 'bout your love just sets me free  
Something 'bout your love just sets me free  
Something 'bout your love just sets me free
