

Sweet December

Brett Eldredge

I need a holiday
I felt so out of place
I find the only truth
Is in your eyes
The world feels upside down
You turn it back around
Through wind and snow you are
My northern star

Baby baby turn on the Christmas tree
Take me home and set me free
A blanket's good but your love's even better
Baby baby put on the classic songs
You make me wanna sing along
Your heart's good at making me remember
It's gonna be a sweet December

The year was long, it's true
But I'm holding onto you
We're melting by the fire
As it pops
And the holly fill the air
There's beauty everywhere
And you lead me to the light
Don't ever stop

Baby baby turn on the Christmas tree
Take me home and set me free
A blanket's good but your love's even better
Baby baby put on the classic songs
You make me wanna sing along
Your heart's good at making me remember
It's gonna be a sweet December

I follow your footprints
In the snow
Your love is what always
Leads me home

Baby baby turn on the Christmas tree
Take me home and set me free
A blanket's good but your love's even better
Baby baby put on the classic songs
You make me wanna sing along
Your heart's good at making me remember
It's gonna be a sweet...

December (December)
Oh it's gonna be it (oh yeah)
