

# Where Do I Sign

Brett Eldredge

You got it together  
I know you do  
No matter the weather  
Sun's always shinin' on you  
I know that love ain't been easy  
But don't let that get in your way

Baby, you're perfect, you don't need fixin'  
You need a real man to hold you and listen  
You can be you, I'll just be me  
We'll come together whenever you need  
I'll give you space, but I'll cross your mind  
Pour on the heat whenever it's time  
Oh, if you're lookin' for someone to put it all on the line  
Tell me, baby, where do I sign? (Woo)

Would never believe that you've had your doubts  
Sure seems to me that you've got it all figured out  
So confident when you walk  
Know what you want when you talk

Baby, you're perfect, you don't need fixin'  
You need a real man to hold you and listen  
You can be you, I'll just be me  
We'll come together whenever you need  
I'll give you space, but I'll cross your mind  
Pour on the heat whenever it's time  
And if you're lookin' for someone to put it all on the line  
Tell me, baby, where do I sign?

Oh, yeah

Watch this  
Sign me up, baby  
Oh, good lord (Oh, good lord)  
Sign me up, baby  
I'm all yours, oh

Baby, you're perfect, you don't need fixin'  
You need a real man to hold you and listen  
You can be you, I'll just be me  
We'll come together whenever you need  
I'll give you space, but I'll cross your mind  
Pour on the heat whenever it's time  
If you're lookin' for someone to put it all on the line  
Tell me, baby, where do I sign?

Oh, where do I sign? (Where do I sign?)  
Mm, woo  
Where do I sign?
