

# Queen On The River

Brett Kissel

Hey Darlin'  
You're looking a little flushed  
But don't worry 'cause I'm straight  
So there's no need to rush  
We can make a pair  
Just sit right over there  
I'll deal you in, and give you all my love

'Cause you're my queen on the river  
And I'm your king on the turn  
Just make sure that I'm the one you draw  
After the joker you burn  
'Cause a full house beats a pair  
And you know I'll take you there  
There's no need to call my bluff 'cause  
I've tipped my hand with all my love

Let's ante up  
And raise the stakes a bit  
'Cause you've been misdealt all your life  
But it's no time to quit  
I'm short stacked, I'm bettin', hopin'  
It's your call, the table's open  
Fold now, or call me, "All in"

'Cause you're my queen on the river  
And I'm your king on the turn  
Just make sure that I'm the one you draw  
After the joker you burn  
'Cause a full house beats a pair  
And you know I'll take you there  
There's no need to call my bluff 'cause  
I've tipped my hand with all my love

You're my queen on the river  
Yeah, and I'm your king on the turn  
Just make sure that I'm the one you draw  
After the joker you burn  
'Cause a full house beats a pair  
And you know I'll take you there  
There's no need to call my bluff 'cause  
I've tipped my hand with all my love  
There's no need to call my bluff 'cause  
I've tipped my hand with all my love
