

# Slow Me Down

Brett Kissel

I'm all night headlights  
Weaving through the white lines  
I'm a fast train, jet plane  
Spinning like a hurricane  
I'm lights green, top speed  
Nothing's gonna stop me  
But your sweet smile

Come and put your arms around me baby  
Lay me down and love away my crazy  
Be my sunrise, Sunday morning save me  
Before the wheels spin out, I need you now

To slow me down  
Like only you know how  
Slow me down

You're my let go, slow mo  
Easy down a backroad  
You're my breathe out, breathe in  
Hallelujah amen  
When I get like this  
You're my quick fix, settle me down, kiss

Come and put your arms around me baby  
Lay me down and love away my crazy  
Be my sunrise, Sunday morning save me  
Before the wheels spin out, I need you now

Slow me down  
Like only you know how  
Slow me down

Just jump in the car and hit the gas  
I need you fast baby, speed baby  
Speed, get to me, get to me

Come and put your arms around me baby  
Lay me down and love away my crazy  
Be my sunrise, Sunday morning save me  
Before the wheels spin out, I need you now

To slow me down  
Like only you know how  
Slow me down  
Like only you know how  
Slow me down

Slow me down  
Slow me down  
Slow me down  
Ooh
