

Say Less

Brett Young

Say less

I know we got plans to go out tonight
But you're giving me some pretty strong stay-in vibes
You ain't gotta beg, baby, save your breath
Say less

You already poured me whiskey
Got me tipsy
Leaned in to kiss me
Whispered in my ear kinds quiet
"Maybe we should kill the lights..."
Yeah

Whatever you want tonight
I'll do it
You ain't gotta talk
Just walk me through it
It ain't even fair the way you're wearing that black dress
Girl, I confess

I don't stand a chance when you move in closer
I get you in my hands and it's all over
You don't need to ask me. I'm all in
The answer is "Yes"
I'll do the rest
Say less
Say less

Yeah

It's been a long time since I had you to myself
And I don't wanna share you with no one else
That look on your face
Girl, I ain't gotta guess
Say less

Whatever you want tonight
I'll do it
You ain't gotta talk
Just walk me through it
It ain't even fair the way you're wearing that black dress
Girl, I confess

I don't stand a chance when you move in closer
I get you in my hands and it's all over
You don't need to ask me. I'm all in
The answer is "Yes"
I'll do the rest
