

This

Brett Young

I slammed some doors, had sleepless nights
We crossed some lines, apologized
We might've hurt each other one too many times
Yeah, we made love then messed up
We've seen the worst to both of us
Life and love ain't always perfect
But we know it was worth it

For this
I wouldn't miss
Every high and every low
Every fight and every kiss
I wanna live
Through all of it
The good times and the bad
Yeah, we went through all of that
For this
For this

We chased our dreams from nine to five
We fell between and fell behind
We never dreamed our dreams would bring us here tonight, oh-oh
We were hoping for forever
Now we're standing here together
How could it get any better?

Than this
I wouldn't miss
Every high and every low
Every fight and every kiss
I wanna live
Through all of it
The good times and the bad
Yeah, we went through all of that
For this

Yeah, my whole life brought me here
For this
For the blood and sweat and tears
For this
I thank God I put in the years

For this
I wouldn't miss
Every high and every low
Every fight and every kiss
I wanna live
Through all of it
The good times and the bad
Yeah, we went through all of that
For this, yeah
For this

Yeah, my whole life brought me here
For this
