

This Ring

Brian Doerksen

This ring is a symbol of love that never ends
A circle of belonging with you my closest friend
This ring on my hand tells the world I have been claimed
We stood before God and our friends my vow spoke your name

Forsaking all others
Finding our comfort
In a circle of lifelong love

This ring that's still on my hand remembers what's real
The love that we've shared through the years
The love we still feel

Forsaking all others
Finding our comfort
In a circle of lifelong love

With all I am and all I have I cherish you till death do us part
To have you close, to hold you fast, to stay with you
This is my vow - I'll always love you

With all I am and all I have
To have you close to hold you fast

Forsaking all others
Finding our comfort
In a circle of lifelong love

This ring is a symbol of love that never ends
