

Come Wander With Me

Brian Fallon

I came to this world in a seaside town where the water could cool
your broken body out
I learned you can rise over the cards in your hand
Mama was a woman and a hard-workin' man

Now everyone I know had to make their own bed
Try to do as good as their fathers did for them
I never knew mine so I bandaged the hurt
I pretended that my daddy was a bank robber

Oh but you, you always said, "You're just too good a ship to wreck."
You said, "Never mind nothin', there's a summertime humming once
the bandages come off."
Yes, and you always believed there was some kind of diamond in
me
Oh but if you still burn every night in the hurt, I know a place
where the pain doesn't reach
Come wander with me
Come wander with me

Now I tried to believe but it's so hard to know
How to do right, Rudy, with the seeds that we've sewn
But the voices are loud and the miles are long
And heroes are a hard thing to find when you're gone

Oh but you, you always said, "You're just too good a ship to wreck."
You said, "Never mind nothin', there's a summertime humming once
the bandages come off."
Yes, and you always believed there was some kind of diamond in
me
Oh but if you still burn every night in the hurt, I know a place
where the pain doesn't reach
Come wander with me
Come wander with me

Now I hope the things that trouble me, they don't catch you or
put you on your knees
But I found out time and work don't make you a man
Because time didn't teach me anything, and the working only broke
my hands
And when someday came I did not understand
U-understand, understand

Oh but you, you always said, "You're just too good a ship to wreck."
You said, "Never mind nothin', there's a summertime humming once

e the bandages come off."

Yes, and you always believed there was some kind of diamond in me

Oh but if you still burn every night in the hurt, I know a place where the pain doesn't reach

Come wander with me (it's hard to sleep, I can bring you a dream, my baby, come wander with me)

Come wander with me
