Brian Kelley

She already got the Wranglers® on
Buck® knife cut way above the knee
She already got the Hank turned on
Two-piece peaking outta Mossy Oak® tee

I got the windows down
She got me tied up
In the cab of this K5® fixer up
Zebco® next to the waders
My baby loves it, when I take her and put her in the middle of some acres

Little Reddy® in a Yeti® with some Maker's®
Little shotgun ride in a Gator®
My baby loves it, when I take her
Rolling through the pasture
Ball cap backwards

Get her heels off of the concrete
Get her barefoot dancing in the cold creek
Out in the country
My baby loves it
When I fire up the Blazer®
And put her in the middle of some acres

Put her in the middle of some acres

Put her in the middle of a Georgia farm
Let her roots run wild and free
Then wrap her up in my arms
Let her love all night on me

Paly her something with a fiddle
Moon sitting in the middle
Star shining like nickels
Yeah
Put her in the middle of some acres

Little Reddy® in a Yeti® with some Maker's®
Little shotgun ride in a Gator®
My baby loves it, when I take her
Rolling through the pasture
Ball cap backwards

Get her heels off of the concrete
Get her barefoot dancing in the cold creek
Out in the country
My baby loves it
When I fire up the Blazer®
And put her in the middle of some acres

Yeah. Put her in the middle of some acres

Get her in a red clay field 'round 2 AM
Guitar and a hickory fire
Passing back and forth something rolled in a paper
My baby loves it, when I take her and put her in the middle of some acres

Sipping on her favorite moonshine flavor
She 'bout to blow a back forty breaker
Yeah

'Cause my baby loves it, when I take her and put her in the middle of some a
