

Always Summertime

Brian Kelley

We're like oysters and beer
Every day of the year
Anytime you're near, it's summertime
Bare feet off the dock
With you coming in hot
Even if it's not, it's summertime

Kisses taste like cotton candy
Life is sweet, salty, and sandy
We could be up north in the snow
But it sure does feel like Miami

Yeah, it's always summertime when you're around
No, there's never not sunshine coming out
Of that smile and them eyes, Carolina blue
Yeah, it's always summertime when I'm with you
Yeah, it's always summertime
Yeah, it's always summertime
Summertime, yeah

Roll the ragtop back
And put your feet on the dash
And honey, just like that it's summertime
Baby, you got a way
To keep the seasons from changing
Kinda hard to complain

'Cause it's always summertime when you're around
No, there's never not sunshine coming out
Of that smile and them eyes, Carolina blue
Yeah, it's always summertime when I'm with you
Yeah, it's always summertime
Yeah, it's always summertime
Summertime, yeah

If you were a song, you'd hear the steel drums ringing
You turn it on and honey, I start singing

It's always summertime
It's always summertime
Summertime

Yeah, it's always summertime when you're around
No, there's never not sunshine coming out
Of that smile and them eyes, Carolina blue
Yeah, it's always summertime when I'm with you
Yeah, it's always summertime
(Always summertime)
Yeah, it's always summertime, summertime
(Yeah, it's always summertime)

Yeah, it's always summertime
(Summertime, summertime)
Yeah, it's always summertime
Summertime

Summertime

Summertime
(Summertime)
Always summertime
