

Florida Strong

Brian Kelley

I come from the 386 so I've seen my share of storms and wind
But now I've seen it blow like it ain't ever blown before
My heart's ripped out right outta my chest
There's a lot of people needing help
My homeland is going through hell
Took everything and more
I know sometimes it's easier to just give up
Tough don't describe what we're made of

So we are Florida strong
The kind that won't ever back down
When it all goes wrong we'll find a way to turn it all around
We'll build back together
And it won't be too long
'Fore we polish up our treasure that we all call home
From the oaks to the pines to the ponds
We are Florida strong, oh
We are Florida strong

Thank God for all our good neighbors
Do-gooders and outer-staters
Sometimes in life you need favors
Sometimes you're gonna need help
We might bend but you can't break these roots
From our sunshine state of mind, our flip flops and our boots

We are Florida strong
The kind that won't ever back down
When it all goes wrong we'll find a way to turn it all around
We'll build back together
And it won't be too long
'Fore we polish up our treasure that we all call home
From the oaks to the pines to the ponds
We are Florida strong

We are Florida
We are Florida
(We are Florida strong)
We are Florida strong
Florida strong

I see a resilient people
I see hope and I see light
Oh the times they may be rough
We won't give up the fight
'Cause we love where we live
And we ain't going at it alone
We got each other's backs
We are Florida strong

We are Florida strong
The kind that won't ever back down
When it all goes wrong we'll find a way to turn it all around
We'll build back together
And it won't be too long
'Fore we polish up our treasure that we all call home
From the oaks to the pines to the ponds

I believe that we will carry on
We are Florida strong

We are Florida
We are Florida
(We are Florida strong)
We are Florida strong
Florida strong
We are Florida
We are Florida
(We are Florida strong)
We are Florida strong
