

You were down from Georgia
Chasing down a tan
And I was pulling forties
Working for the man
And I was singing at the bar and bartending
Shooting the shots you and your friends kept sending
End of the night, no, we didn't wanna end it
Played it cool, but I couldn't pretend them

Teal
Blue eyes like I'd never seen didn't put me in my
Feels
Them airbrush Panama City skies looking like
They've been waiting on us
To see the day when the stars would line up
And every time I have a Florida flashback
Close my eyes and I still see that
Teal
(Them blue colored eyes)

Teal, like my '79 Scout
Real, like I'm feeling it right now
That love we made then was lights out
Only see one thing when I think about

Teal
Blue eyes like I'd never seen went and put me in my
Feels
Them airbrush Panama City skies looking like
They've been waiting on us
To see the day when the stars would line up
And every time I have a Florida flashback
Close my eyes and I still see that
Teal

You and all your bulldog friends
Wound up at my fire in the sand
You were wearing my hat
Watching that Gulf Shore sunset sinking down into that

Teal
It's all teal
I see ya, girl

Teal
Blue eyes like I'd never seen went and put me in my
Feels
Them airbrush Panama City skies looking like
They've been waiting on us
To see the day when the stars would line up
And every time I have a Florida flashback
Close my eyes and I still see that
Teal
(Them blue colored eyes)
It's all teal
(Them Panama City skies)
