

## Roll With You

Brian May

I was a girl of just a few words playing in the sun,  
Just a little kid chasing blue birds and singing just for fun.

But now I found my voice and now I made my choice:  
Gonna shout it out, put it all about,  
Now I can make some noise.

I wanna roll with you.

In my life I go with my heart chest, it always was that way.  
I guess I always roll with the punches, it's so fun and games I  
say.

When the clouds appear, and it's okay, oh, I know soon they'll  
go away.  
But I have to say, 'cause I feel this way,  
If that's the way we roll

I wanna roll with you.

In my world there ain't no free lunches.  
I worked my way to everything I own.  
But I think of you in the coffee bar and driving in my car.  
And when they say we won't get far, singing "la la la la la".

'Cause baby, you're a star!  
I wanna roll [3x]  
Let me hear you!  
I wanna roll [3x]

I wanna roll with you.

I don't expect perfection, I don't need it to make a fuss.  
You don't have to make me the Queen of Spain, 'cause I don't ne  
ed that stuff.

Just call me on my iPhone, and tell me you'll come around.  
I said "Where you been, it's late o'clock  
And, babe, I have to rock."  
We gonna rock!

And roll with you.  
I wanna roll with you.  
I wanna roll with you.  
I wanna rock and roll with you.
