

You're In My Head

Brian McComas

I don't know why I'm even calling
I told myself I'm through with falling
Right now I should be running from these thoughts of you
That just keep coming, but I can't

CHORUS

You're in my head, you're in my heart
You're in that song on the radio in my car
Even in my dreams
I feel your skin on my skin
Out of breath, each day ends like it begins
You're in my head

I drove four hundred miles the other day
Biggest mistake that I ever made
'Cause I saw you on every billboard sign
In every car that passed me by I saw your face

CHORUS

You're in my head, you're in my heart
You're in that song on the radio in my car
Even in my dreams
I feel your skin on my skin
Out of breath, each day ends like it begins
You're in my head

Ain't no trigger I can trip
No swith that I can flip
Even if I wanted to
You're in my head

CHORUS

You're in my head, you're in my heart
You're in that song on the radio in my car
Even in my dreams
I feel your skin on my skin
Out of breath, each day ends like it begins
You're in my head

You're in my head
You're in my head
Oh, Yeah
