

Champagne and Wine

Brian McFadden

Sitting here thinking, about the times I've roamed
Different girls that I've known
Of all girls that I have met
You are the one girl that I can't forget, listen

We had our time, now
Good and bad, now
I can't forget a man
I sho' ain't gonna forget him, now

Remember Side Street
Where we used to meet
Making love
Nobody but you and me

Champagne and wine
That's what you gonna get
Champagne and wine
Is what it's gonna be
Just as long girl, as you see about me

I'm gonna be knocking on your door
I want the same love that I had before, listen
I'm a man now, full grown man
You got me eating from the tip of your hand, baby

I don't mind eatin'
Long as you feed me
Good love and
Good ole sympathy

Champagne and wine
That's what it's gonna be

Everyday, is gonna just be like Sunday
And every night you're gonna have stars in the sky
Ooh, champagne and wine
Champagne and wine
Tell me baby, ooh ooh ooh ooh (champagne and wine)
Sing it to me baby (champagne and wine)
La la la la la la la la la (champagne and wine)
Ooh ooh ooh, champagne and wine
You're champagne and wine
Ooh, champagne and wine
