

Just The Way You Are (Drunk At The Bar)

Brian McFadden

I like you just the way you are
Drunk as shit dancing at the bar
I like it
And I can't wait to get you home
So I can do some damage

Sometimes it's the little things we like
But we pretend to hate them
These things make other people fight
But in you I love them

Take a chance, dance, party the night away
Never mind, find plenty of ways to stay
All night, I'm watching you all the way
You can't phase me

It's a crystal ball of flashing lights
You're the nights bright wonder
Your sex comes crashing into sight
Breathing lustful thunder

Take a chance, dance, party the night away
Never mind, find plenty of ways to stay
All night, I'm watching you all the way
You can't phase me

I like you just the way you are
Drunk as shit dancing at the bar
I like it
And I can't wait to get you home
So I can do some damage
I like you just the way you are
Jump in the back seat of my car
Cos I like it
And I can't wait to get you home
So I can take advantage

It's those little looks you throw at me
That always bring me to my knees

I like you just the way you are
Drunk as shit dancing at the bar
I like it
And I can't wait to get you home
So I can do some damage

Your imagination takes full flight
And you feel amazing
Two steps from heaven dressed in white
with your halo blazing

Take a chance, dance, party the night away
Never mind, find plenty of ways to stay
All night, I'm watching you all the way
You can't phase me

I like you just the way you are

Drunk as shit dancing at the bar
I like it
And I can't wait to get you home
So I can do some damage
I like you just the way you are
Jump in the back seat of my car
Cos I like it
And I can't wait to get you home
So I can take advantage

It's those little looks you throw at me
That always bring me to my knees

I like you just the way you are
Drunk as shit dancing at the bar
I like it
And I can't wait to get you home
So I can do some damage

Oh yeah, here we go again
Everybody looking at you, looking like a ten
All messed up, no place to go
Flirting on the dance floor
Putting on a show
So far you're killing at the bar
Getting really trashed
Still looking like a star
Even if you go too far
I love you just the way you are

Oh yeah, here we go again
Everybody looking at you, looking like a ten
All messed up, no place to go
Flirting on the dance floor
Putting on a show
So far you're killing at the bar
Getting really trashed
Still looking like a star
Even if you go too far
I love you just the way you are

I like you just the way you are
Drunk as shit dancing at the bar
I like it
And I can't wait to get you home
So I can do some damage
I like you just the way you are
Jump in the back seat of my car
Cos I like it
And I can't wait to get you home
So I can take advantage

It's those little looks you throw at me
That always bring me to my knees

I like you just the way you are
Drunk as shit dancing at the bar
I like it
And I can't wait to get you home
So I can do some damage
