

Shake

Brian McFadden

Listen while I talk to you yeah
I'll tell you what you're gonna do now
There's a new thing, it's going around
And I'll tell what to put down
Just move your body all around

And just shake
Shake, shake, baby
That's the way you do it
Oh you're looking so good now

You shake it like a bowl of soup
Let your body loop de loop yeah
Put your hands on your hips now
Come on and let your backbone slip
Move your body like a whip

And just shake
Got to, got to have it
Keep on pushin' baby, oh

A ringaa-ling a-ling
Honey, Shakin' is the greatest thing
But if you're ready to roll
Gotta do the thing with soul

Shake the shake with all your might yeah
And if you do it, do it right now
Put your hands on your hips now
Come on and let your backbone slip
Move your body like a whip

And just shake
Shake, shake, baby
Come on good looking now
Shake, shake, baby

If you wanna really roll now
Gotta do the thing with soul yeah
Shake shake with all your might yeah
If you do it, do it right yeah
Let your body loop de lite

You got to shake
Shake, shake, baby
Got to, got to have it
That's the way you do it
Shake, shake, shake it in the evening

Shake, shake all night long
Shake, shake all night long
Shake, shake all night long
Shake, shake all night long
Shake, shake all night long
Just shake it all night long yeah

Shake, shake all night long

Shake, shake all night long
Shake, shake all night long
Shake, shake all night long

All, all night long
Shake it in the morning
All night long
Shake it in the evening
All night long
Shake it in the morning
