

# Twisted

Brian McFadden

It's the end of the way that it used to be  
Sipping on my guilt under a willow tree cause I'm...  
Twisted

Dancing in my head to a funky up beat  
Tripping on the corner of a two way street  
And, I smile a twisted smile when I say...

Let the world keep turning  
Cause I'll be standing still  
And the Earth feels closer to heaven  
Just because you're here  
I've been chased by angels  
I've been drunk out of my mind  
And the Earth feels better than heaven  
Just because you're here

Twisted

Seeing my reflection in the concrete ground  
Leaving my theories on the merry go round cause I'm...  
Twisted

Trying to make sense of a traffic sign  
Searching for the genius in a nursery rhyme  
And, I smile a twisted smile when I say...

Let the world keep turning  
Cause I'll be standing still  
And the Earth feels closer to heaven  
Just because you're here  
I've been chased by angels  
I've been drunk out of my mind  
And the Earth feels better than heaven  
Just because you're here
