

Enough

Brian McKnight

Don't know much about tomorrow
Cannot live for yesterday
Just give me a song to sing
And a melody to play

Don't know much about the stars up in the sky
Not afraid of what might be
You're the reason for the twinkle in my eye
Cause I have you here with me

Cause every time I'm with you
And every time we touch
And every time I'm missing you
I'm missing you so much
And every time I'm away from you
You're all that I think of
And every time we're making love
I can't, I can't get enough

Don't know much about the wind in the trees
I'll leave that up to someone else
I can't wait to have you next to me
So I can have you all to myself

It's so intoxicating
When I look into the eyes of the one who gives her love to me
Baby, you're my one and only
You will always be the apple of my eye
And I'll never leave you lonely

Every time I'm with you
And every time we touch
And every time I'm missing you
I'm missing you so much
And every time I'm away from you
You're all that I think of
And every time we're making love
I can't, I can't get enough

I don't ever want to miss your kiss goodnight
And I wanna be right here by your side
Every morning, when you open up your eyes
Your eyes, your eyes

Every time I'm with you
And every time we touch
And every time I'm missing you
I'm missing you so much
And every time I'm away from you
You're all that I think of
And every time we're making love
I can't, I can't get enough
