

Let It Snow '98

Brian McKnight

Ah yeah
Boyz II Men, Brian McKnight
Back at ya baby
A little something for ya in '98
Y'all ready fellas
Let's turn it on for them
As a matter of fact, let's make it snow
Ya ready, here we go

Let it snow, let it snow
But the fire's blazin'
Let it snow, let it snow
But the fire's blazin'
Let it snow, let it snow, let it snow

It's just another Christmas holiday
Just me and you
The weather's stormy, but we're A-OK
And there's nothing that I'd rather do
Than lay you down beside the fireplace
No where to go
You run out of breath, I start to shake
Let it snow, let it snow, let it snow

Come over here
Pretend like I'm the tree, and you are the star
You're all the present that I'll ever need
Just wanna be everywhere that you are
Hear the carolers, the sleigh bells ring
Where's the mistletoe
We feel happiness the season brings
Let it snow, let it snow, let it snow

And oh, you are my everything
Won't ya come, won't ya come
God must have sent you down from heaven

[Chorus]
