Girl I know heard it all a thousand times before  
You've been hurt wanting any times and it shows (too many times for sure)

Baby nothing goes nothing it was nothing  
Go get nowhere and living in the past  
Days are purple days by starting something  
The only way to find out is to ask girl.

And I'll talk with you (if that's okay)  
Can I walk with you? (if that's okay)  
Get to know you (get to know you)  
I'm gonna tell you (I'm gonna tell you)  
I'm gonna show you (gonna show you)  
What I can do a  
Will you let somebody luv u luv u luv u luv u?

Girl I can see it that you're feeling me when I look into your eyes oh yes I  
do  
And I can feel it that your heart is dancing breaking just like mine

And I'll talk with you (if that's okay)  
Can I walk with you? (if that's okay)  
Get to know you (get to know you)  
I'm gonna tell you (I'm gonna tell you)  
I'm gonna show you (gonna show you)  
What I can do  
Will you let somebody luv u luv u luv u luv u?

I can't imagine the feeling go  
Too much too much can be enough  
? I can see your heart is yawning to be free  
And if it can be me then I'll promise

Will you let somebody?  
Will you let somebody?  
Will you let somebody?  
Will you will you?

Will you let somebody?  
Somebody luv u.  
Will you let somebody?  
Somebody luv u.

Will you let somebody?  
Somebody luv u.  
Will you let somebody?  
Somebody luv u.

Even though I wasn't to be  
I need you right now  
Will you let somebody?  
Open up your heart  
Will you let somebody?
