

# Not Alone

Brian McKnight

See the bird, hear him sing  
Whether or not, you mean everything  
I don't know, I just know I'm not alone  
A baby's birth, the lion's roar  
My rights and my wrongs  
Are you keeping score?  
I don't know, I just know I'm not alone

So many questions in my mind  
More than the stars up in the sky  
But I don't know, I just know I'm not alone  
Are we really running out of time?  
You said if I seek that I will find  
But I don't know, I just know I'm not alone,  
There's no way that I'm alone  
I just know I'm not alone

Of all the valleys wide and oceans deep  
Evolution or creation, somewhere in between?  
I don't know, I just know I'm not alone...  
The burning bush, or Noah's ark...  
Where does it end or where did it start?  
I don't know, I just know I'm not alone...

So many questions in my mind  
More than the stars up in the sky  
But I don't know, I just know I'm not alone  
Are we really running out of time?  
You said if I seek that I will find  
But I don't know, I just know I'm not alone,  
There's no way that I'm alone  
I just know I'm not alone

... I just know I'm not alone,  
There's no way that I'm alone,  
I just know I'm not alone...
