

Strut

Brian McKnight

(1, 2, 3, 4)

Oooh
I like it, I like it, I like it, babe
Oooh yeah
Listen, baby girl, now

You have everything I ever wanted
When you got it it's okay to flaunt it
When you pass by every face is grinnin'
The only thing you know is winnin'

You have such impeccable taste (yes you do, yes you do, yes you do)
So much style and so much grace (so much grace)
You're the only one I need in my life

I'm all about it when you strut (yes)
Cause I really really like to see you when you strut (when you strut, yeah)
Cause all them other bitches want to be you when you strut
Girl, I'm so proud to put my arm around your waist (strut)
I only live to keep a smile upon your face, baby
Strut (strut, strut, strut, strut)
I like it, I like it, baby (strut, strut, strut, strut)

You have everything I ever needed
Super confident but not conceited
I smile each and every time I see your face
Where'd you come from must be outer space

You have such impeccable taste (yes you do, yes you do, yes you do)
So much style and so much grace
You're the only one I need in my life (only one I need)

I'm all about it when you strut (oh baby)
Cause I really really like to see you when you strut (when you strut)
Cause all them other bitches want to be you when you strut
Girl, I'm so proud to put my arm around your waist (strut)
I only live to keep a smile cause you're so light on your feet (strut, strut
, strut, strut)
And you got a smile for everyone that you see (strut, strut, strut, strut)
I'm captured by your stride cause you don't really walk baby, you glide

I'm all about it when you strut (strut)
Cause I really really like to see you when you strut (really really really r
eally like to see you, baby)
Cause all them other bitches want to be you when you strut
Girl, I'm so proud to put my arm around your waist (strut)
I only live to keep a smile up on your face
Girl, I'm so proud to put my arm around your waist (strut, strut, strut, str
ut)
I only live to keep a smile up on your face (strut, strut, strut, strut)
