

# When I'm Gone

Brian McKnight

Another long night  
Fifteen-hour flight  
Makin' it about you  
Gotta go sing  
Tokyo in spring  
There's no sleep without you

This is our life  
Our own sacrifice

So it goes, the night turns your daytime  
We go, Facetime to Facetime  
I'm missing the biggest part of me  
And it shows, it shows

Do you ever get lonely, like I do  
Tell me how much you miss me  
When I'm not there beside you  
It's getting harder and harder to breathe  
When I'm gone

Caught up in the mix  
Scrollin' through our pics  
The moments that we treasure  
Memories fade  
That's why we try to save  
Every second we're together

I can't take you everywhere with me  
But I would, if I could

Do you ever get lonely, like I do  
Then tell me how much you miss me  
When I'm not there beside you  
It's getting harder and harder to breathe  
When I'm gone, when I'm gone

A couple more days to go  
I'm asking but I already know  
Why does time move so slow

Do you ever get lonely, like I do  
Tell me how much you miss me  
When I'm not there beside you  
It's getting harder and harder to breathe  
When I'm gone, when I'm gone

Do you ever get lonely, like I do  
Tell me how much you miss me  
When I'm not there beside you  
It's getting harder and harder to breathe  
When I'm gone
