

Life begins after school  
That's when we bend all the rules  
Time to hang with all my friends  
We like to be together  
In a place where we belong

I'm 16 starting to find my way  
Live for tomorrow don't forget about yesterday  
Thank God, I'm on my own for the first time  
I'm, 16 life is sweet, when your growing up so fast  
You got to make the good times last

If I could turn back time, I wouldn't change a thing  
Cuz we have growing up to do  
Now that I'm getting older  
Want to spend the rest of my life

Like I'm 16, starting to find my way  
Live for tomorrow don't forget about yesterday  
Thank God, I'm on my own for the first time  
I'm 16 life is sweet, when your growing up so fast  
You gotta make the good times last

What do you get from life  
If you don't ever let go... JUST LET GO...

16 life is sweet, when your growing up so fast  
You gotta make the good times last

Life began after school... when did they change all the rules?
