

Your True Love

Brian Setzer

Well, your love, your true love
Your true love baby that's what you give to me
Your love, your true love
Your true love baby that's what you give to me

Well, God made the world and He made it round
I got my baby and I'm glad I found
Her love was meant for me
And my baby she'll always be

She gives me true love, your true love
Your true love baby that's what you give to me

Your love, your true love
True love baby that's what you give to me
Your love, oh, your true love
Your true love baby that's what you give to me

Well, the big, the little, young and old
They all need something I have and hold
When I found you I found it
You give me something, baby, hard to forget

Your love, your true love
Your true love baby that's what you give to me

Your love, oh your true love
Your true love baby that's what you give to me

You give me something, baby, hard to forget

You give me your love, your true love
Your true love baby that's what you give to me

Your true love baby that's what you give to me
True love baby that's what you give to me
Oh, true love baby that's what you give to me
