

Take Me Back

Brick & Lace

Uuuuh... Baby yeah... ladadada

Take me back to the place where we were free
Didn't have a care in the world you see
All that really mattered was you and me

Times were still the world was frozen
A pretty picture love was golden
Best friends and Lovers till eternity
You and me

But now the seasons chainging
Everything's been rearranged and
Now your Kisses seem so cold
Too busy to do
The Things we used to
It ain't the same anymore

Take me back (ooh)
Take me back to where it was good (ooh)
Take me back to where love was new (ooohoo)
Take me back (ooh)
'Cause I know things haven't been the way that they should (ooh)
But I know if you try then Baby you could (ooohoo)
Take me back

Let's troughlive this special moments
The moments that we took for granted
The way you held my face in your hands (ohoo)
Caught in amazing love so true
Never thought that I'd loose you
Baby what am I to do (doooo)

But now the seasons chainging
Everythings been rearanging and
Now your touches seem so cold
Too busy to do
The Things we used to
It ain't the same anymore

Take me back (ooh)
Take me back to where it was good (ooh)
Take me back to where love was new (ooohoo)
Take me back (ooh)
'Cause I know things haven't been the way that they should (ooh)
But I know if you try then Baby you could (ooohoo)
Take me back (Take me back)

Baby we can't deny
What we had it was right for so long
(Where did we go wrong)
So let's try to replay all those magical days
'Cause we've been through the grey clouds the storm passed away

Take me back (ooh)
Take me back to where it was good (ooh)
Take me back to where love was new (ooohoo)

Take me back (ooh)
'Cause I know things haven't been the way that they should (ooh)
But I know if you try then Baby you could (ooohoo)
Take me back (Take me back Baby)

Take me back (ooh)
Take me back to where it was good (ooh)
Take me back to where love was new (uuhhoo)
Take me back
