Hangman Comes  
I, I walk  
Straight up  
To the devils doorbell  
Press down hard  
Because I've been through  
Hell...ugh I'm the man who set the...

I'm the man who set the world on fire  
I learn to dance on the funeral pyres  
I always love it when the hangman comes  
I only like when the hangman comes

To be the one to set the world on fire  
To make them shake before they speak  
To have everything your heart desires  
To watch the world beneath my feet

I walk straight up to the devils doorbell  
I press down hard I've been through hell  
I walk straight up to the devils doorbell  
I press down hard because I been through hell  
I need some advice  
I need some advice because you do so well

I'm the man who set the world on fire  
I learn to dance on the funeral pyres  
I always love it when the hangman comes  
I only like when the hangman comes

To be the one to set the world on fire  
I always love it when the hangman comes  
To make them shake before they speak  
To have everything your heart desires  
I always love it when the hangman comes  
To watch the world beneath my feet
