

## Follow Your Heart

Bride

In this space and time that we inhabit  
Sometimes don't we feel like an exhibit  
Growing up isn't something easy to do  
Feeling so free we can't lose

Follow your heart not your head  
Follow the voice within  
Follow your heart not your head  
It's calling you again

When wrong speaks to you in the night  
Right isn't far behind in the light  
Our little minds wander away sometimes  
As long as they return we live fine

Follow your heart not your head  
Follow the voice within  
Follow your heart not your head  
It's calling you again

When your dreams fall beneath your feet  
Out souls reach up searching for peace  
Go ahead reach up a little higher  
Don't leave 'till you've felt the power

Follow your heart not your head  
Follow the voice within  
Follow your heart not your head  
It's calling you again
