

Enemies Within

Bridge to Grace

Maybe I'll try to make it
(No you're not worth the trouble)
Maybe I'll celebrate it
(End up seeing double)
Why does the world keeps spinning?
('Cause you have no control)
Why does the floor keep winning?
(Don't act like you don't know)

Cold days
Toxic and sick from all my
Old ways
Dragging me down

My enemies within
Are laughing always
They drown me with my sin
I'm suffocating

I think that I've got a grip now
(I'm pretty sure that you're slipping)
Why do you undermine me?
(Need to lie, the truth is slipping)
I still [?]
(Am I moving it all?)
Too confused to stand here
(Am I [?])

Cold days
Toxic and sick from all my
Old ways
Dragging me down

My enemies within
Are laughing always
They drown me with my sin
My sin

All the exits are closing
All the gates have come down
All the roads that I've chosen
Leave the truth unfound

Cold days
Toxic and sick from all my
Old ways
Dragging me down

My enemies within
Are laughing always
They drown me with my sin
My sin

My enemies within
Are laughing always
They drown me with my sin
I'm suffocating
