

# Everything

## Bridge to Grace

I got a heart but it don't beat  
I got a song that I can't sing  
I gotta wait for you alone

I gotta love that I can't chase  
The kind of mystery won't fade  
I gotta wait for you alone

And I'm wasting away

You've taken everything that I want  
'Til there's nothing left to need  
And there is nowhere else to be  
You're changing everything that I need  
'Cause there's nowhere left to hide  
When there's nothing to believe

Would you leave me here behind?  
Would you love to watch me cry?  
Would you like to fly away?

I could show you the truth  
If you'd only let me lose  
If you tell me what you need

And I'm fading away

You've taken everything that I want  
'Til there's nothing left to need  
And there is nowhere else to be  
You're changing everything that I need  
'Cause there's nowhere left to hide  
When there's nothing to believe

And I'm wasting away  
And I'm fading away

You've taken everything that I want  
'Til there's nothing left to need  
And there is nowhere else to be  
You're changing everything that I need  
'Cause there's nowhere left to hide  
When there's nothing to believe

And I'm wasting away  
(everything)  
'Til there's nothing left to need  
And there is nowhere else to be  
'Cause I'm fading away  
'Cause there's nowhere left to hide  
When there's nothing to believe

Would you leave me here behind?  
Would you love to watch me cry?  
Would you like to fly away?

I could show you the truth

If you'd only let me lose  
If you tell me what you need
