

# Killers

## Bridge to Grace

Killers come as friends, they'll lure you in  
Full of compliments and promises  
Now who would ever think of violence,  
When killers come as friends?

Well, I believe in trust and a second chance  
But innocence comes with a consequence  
We'll be lucky to survive this argument  
When killers come as friends  
Killers come as friends...

Who's gonna feed your guilty heart?  
Who's gonna be your murder number one?  
You could tear my world apart  
But I'll always let you in

'Cause killers come as friends (I'll let you in)  
'Cause killers come as friends (I'll let you in)

Remember this fact, yeah, look out your back  
Until they turn around, stick a knife in that  
A wolf in sheep's clothes, oh, it's all an act  
There's no way to defend  
When killers come as friends...

Who's gonna feed your guilty heart?  
Who's gonna be your murder number one?  
You could tear my world apart  
But I'll always let you in

'Cause killers come as friends (I'll let you in)  
'Cause killers come as friends (I'll let you in)

When killers come as friends  
When killers come as friends  
When killers come as friends

Who's gonna feed your guilty heart?  
Who's gonna be your murder number one?  
You could tear my world apart  
But I'll always let you in

'Cause killers come as friends (I'll let you in)  
'Cause killers come as friends (I'll let you in)  
'Cause killers come as friends (I'll let you in)  
'Cause killers come as friends
