

Staring In The Dark

Bridge to Grace

Come away, sun is gone
No more day to be won
I've waited there for you for a side
That we've waited in too long
Waited way too long

Today we fall apart
The way we start again
Staring in the dark

Stay away, keep apart
Nothing waits for a charge
We're facing energy from a spark
In the shadows of the heart
Shadows of the heart

Today we fall apart
The way we start again
Staring in the dark

Today we fall apart
The way we start again
Staring in the dark

We fall apart
Staring in the dark
We start again
Staring in the dark
