

Without You

Bridge to Grace

They're all around me, they're closing in
I'm looking for a reason to start again
What if I fail, what if I fall?
Just hit me, I can take it, I'll take it all

See the light is fading
Can you hear me now?

Without you
I couldn't stand the pain
I'd lose my grip
In the pouring rain
Without you
I'd throw it all away
I'd never make it
Through another day
Without you

My face is bleeding, covered in dirt
I'm standing on my own in a world of hurt
But I can see you from far away
Together we'll be bringing on Judgement Day

See the light is fading
Can you hear me now?

Without you
I couldn't stand the pain
I'd lose my grip
In the pouring rain
Without you
I'd throw it all away
I'd never make it
Through another day
Without you
Without you

(Bringing on, bringing on)
(Bringing on Judgement Day)

They're all around me, they're closing in
But I could never start again without you

See the light is fading
Can you hear me now?

Without you
I couldn't stand the pain
I'd lose my grip
In the pouring rain
Without you
I'd throw it all away
I'd never make it
Through another day

Without you
I couldn't stand the pain

I'd lose my grip
In the pouring rain
Without you
I'd throw it all away
I'd never make it
Through another day
Without you
Without you
Without you
