

# Pulling Me Back

Bridget Kelly

Pulling me back [x4]

I saw the light of day in front of me  
I left you at the bottom of the sea  
I knew if I didn't swim, I'd sink cuz  
You would pull me under

Could never go too far, you're like a magnet  
No matter where you are, I'm still attracted  
I wish I knew the secrets to your magic  
The spell you got me under

I wanna walk away  
Keep going back, going back  
I wanna walk away  
Keep going back, going back

Pulling me back  
My heart can't escape from you, get away from you  
I tried just erasing you but can't break from you cuz  
You pull me right back in

I tell myself to leave but never listen  
My heart is on lockdown, I'm in your prison  
I try to wander off to something different  
But I can't love another

Do you feel my teardrops when I'm crying?  
Or am I just alone out on this island?  
Tell me now cuz I can't stand the silence  
I should [?]

I wanna walk away  
Keep going back, going back  
I wanna walk away  
Keep going back, going back

Pulling me back  
My heart can't escape from you, get away from you  
I tried just erasing you but can't break from you cuz  
You pull me right back in

We could have it all if you want to  
I'm tired of running, I just want to be with you  
Tear down the walls if you want to  
I close my eyes; just don't let me fall

I wanna walk away  
Keep going back, going back  
I wanna walk away  
Keep going back, going back

Pulling me back  
My heart can't escape from you, get away from you  
I tried just erasing you but can't break from you cuz  
You pull me right back in
