

Something

Bridget Kelly

Baby we could blow some trees something
Take a trip, go overseas something
Let the top down, feel the breeze something
Got it all baby, if you ever need something
Baby we could blow some trees something
Take a trip, go overseas something
Let the top down, feel the breeze something
Got it all baby, if you ever need something

A good night, no sleep but it's okay
A good time, turnt up I'm on my way
And I... wish you would come on through
'Cause who knows, got some trouble to get into

Baby we could blow some trees something
Take a trip, go overseas something
Let the top down, feel the breeze something
Got it all baby, if you ever need something
Baby we could blow some trees something
Take a trip, go overseas something
Let the top down, feel the breeze something
Got it all baby, if you ever need something

No stress, no time for the small talk (Don't talk with me)
I'm never [?]
[?] in the corner sipping with my girls
Then I see you, I play it cool
I lick my lips, I know you like when I do
It's not nice, stand there and not say hi

Baby we could blow some trees something
Take a trip, go overseas something
Let the top down, feel the breeze something
Got it all baby, if you ever need something
Baby we could blow some trees something
Take a trip, go overseas something
Let the top down, feel the breeze something
Got it all baby, if you ever need something

[?] kisses, compliment in new positions
You done did it, you can get it
Got the trees, I drink the liquor
Gotta fill it, I can never leave it short and simple
Please don't tease, please don't tip me
Please don't stab me, I'm asking for way too much
[?] before I say too much
Ain't it kind of special how we play too much
Okay, put it on me baby
Let a nigga show you I can do it all at the right time
Know I need love, know I need a good meal
And a prayer in the meantime
Yeah, we could get it popping right here, right now
Say the word and it's going down
[?] with it, thrown away
'Cause I've been around the block with it
And the days that I done did you not feel it
On my knees and my [?] you gon' rock with it

All the love and respect that I got for you
When it's bed time I'ma [?] for you
'Cause I be going down when you don't text
[?] when you can't call
'Cause you got what I need and [?]

Baby we could blow some trees something
Take a trip, go overseas something
Let the top down, feel the breeze
I got it all, whatever you need
