

# The Great Escape

Bridget Kelly

Life gets in the way  
Of what I wanna say  
But everything will be alright  
If you decide to stay  
Too much time we let go by  
Livin' for others  
So I don't care who sees me  
They wish they were you and me

Lookin' across the ocean endless sky  
I could see my reflection  
Closer I get to you I'm satisfied  
Maybe it's just the wine

I don't really care  
I'll go anywhere  
I'm on my own wave  
Get carried away  
The great escape

It ain't that unusual  
To want It all right now  
The more you live the more you learn  
My love will show you how

Lookin' across the ocean endless sky  
I could see my reflection  
Closer I get to you I'm satisfied  
Maybe it's just the wine

I don't really care  
I'll go anywhere  
I'm on my own wave  
Get carried away  
The great escape

Don't hold back  
I'm almost there, boy  
Don't slow It down  
Don't make me beg for it  
No no no  
Told you once before  
You know just how I like to  
Oh oh oh

Lookin' across the ocean endless sky  
I could see my reflection  
Closer I get to you I'm satisfied  
Maybe it's just the wine
