

# Turn Up the Music

Bridgit Mendler

Na na na na na na na

Take a look around  
Who would've thought we'd all be here  
So let's mess around  
'Cause the future is unclear

We got nothing better to do  
We're just trying to get through  
Can you hear me?  
Can you hear me?  
(Yeah)

Let the music groove you  
Let the melody move you  
Feel the beat and just let go  
Get the rhythm into your soul

Let the music take you  
Anywhere it wants to  
When we're stuck and can't get free  
No matter what we'll still be singing

Come on, come on  
Turn up the music  
It's all we got, we're going to use it  
Come on, come on  
Turn up the music  
(Yeah)

All we have is now  
Let's make the most of this  
Come on break it out  
So everyone can here it

They don't have to understand  
But we'll make them if we can  
Do you hear me?  
Are you with me?  
(Yeah)

Let the music groove you  
Let the melody move you  
Feel the beat and just let go

Get the rhythm into your soul

Let the music take you  
Anywhere it wants to  
When we're stuck and can't get free  
No matter what we'll still be singing

Come on, come on  
Turn up the music  
It's all we got, we're going to use it  
Come on, come on  
Turn up the music

(Yeah)

Come on, come on  
Turn up the music  
It's all we got, we're going to use it  
Come on, come on  
Turn up the music  
(Turn up the music)

Let the music groove you (groove you)  
Let the melody move you (Oh)  
Feel the beat and just let go (just let go)  
Get the rhythm into your soul (into your soul)

Let the music take you (take you)  
Anywhere it wants to  
When we're stuck and can't get free  
No matter what we'll still be singing

Come on, come on  
Turn up the music  
It's all we got and we're going to use it  
Feel the beat and just let go  
Get the rhythm into your soul

Let the music take you (take you)  
Anywhere it wants to (oh)  
Come on, come on  
Turn up the music  
(Yeah)
