

## Done With Like

Brie Larson

Never thought I could feel  
So complete without your face  
And your plastic diamond rings

But there's a man who cannot see  
Driving in his Mercury  
Here beside these pointless things

I'm too young to be jaded  
With wasted memory space of love that isn't real  
As a matter of fact  
You can take your stereo back  
Cause I'm so done with, I'm so done with like  
Cause it's all so pointless

Seven blocks, all backed up  
With guys waiting just for me  
It doesn't matter cause you go down the same road eventually

There's a dream I forgot  
Like a film without a plot  
Here's a story you should know

I'm too young to be jaded  
With wasted memory space of love that isn't real  
As a matter of fact  
You can take your stereo back  
Cause I'm so done with, I'm so done with like  
Cause it's all so pointless

I won't waste all your talk  
Don't stop to speak in the hall

As a matter of fact  
You can take your stereo back  
Cause I'm so done with, I'm so done with like  
Cause it's all so pointless

I'm too young to be jaded  
With wasted memory space of love that isn't real  
As a matter of fact  
You can take your stereo back  
Cause I'm so done with, I'm so done with like  
Cause it's all so pointless

I'd be stupid to think this could last  
Much longer than history class  
I'm surrounded by a damn good time  
And I'm not gonna miss it
