

# Go Your Own Way

Brie Larson

Walk away  
Cause it's time to be  
On your own  
Without Me

It's not the same  
When I hear your voice  
And what you say  
Is just noise

So maybe  
I should fill you in...

Hey Boy!  
Go your own way  
I'm telling you  
It's really over  
Not here  
A little to late  
I'm steppin' out now

Hey Boy!  
Go your own way  
It's never gonna work  
Cause we're stuck in reverse  
And you don't have the nerve to change

Did you see?  
The daily news  
Headlines read  
I'm over you

Can't you tell?  
You and me  
Are through  
So hit the road  
And get a clue

Cause I'm not gonna stick around

Hey Boy!  
Go your own way  
I'm telling you  
It's really over  
Not here  
A little to late  
I'm steppin' out now

Hey Boy!  
Go your own way  
It's never gonna work  
Cause we're stuck in reverse  
And you don't have the nerve to change

Cause you're not that strong  
So walk away  
Now what's done is done

I'm moving on

Oh, oh, oh

Hey Boy!

Go your own way

I'm telling you

It's really over

Not here

A little to late

I'm steppin' out now

Hey Boy!

Go your own way

It's never gonna work

Cause we're stuck in reverse

And you don't have the nerve to change

Hey Boy!

Go your own way

I'm telling you

It's really over

Not here

A little to late

I'm steppin' out now

Hey Boy!

Go your own way

It's never gonna work

Cause we're stuck in reverse

And you don't have the nerve to change
